## EDUCATION

---

### Auburn University

*Bachelor of Software Engineering*

Auburn, AL

*Aug. 2023 – May 2027*

## EXPERIENCE

---

### Information Technology Intern

*Floor & Decor*

June 2025 – August 2025

*Atlanta, GA*

- Led a complete UI/UX redesign of the Premier Pro App, enhancing user experience and interface consistency across platforms.
- Developed and implemented front-end components using React Native, improving application responsiveness and maintainability.
- Collaborated with cross-functional teams including designers, product managers, and QA to align on user requirements and technical feasibility.

### Undergraduate Research Assistant

*Auburn University, Samuel Ginn College of Engineering*

January 2025 – Present

*Auburn, AL*

- Developed a full-stack web application using React, Next.js, PostgreSQL, among other full-stack technologies to fit a specified outline created by ICAMS and I&SE faculty.
- Designed an functional and responsive UI for desktop and mobile platforms in Figma and translated to the web using Tailwind CSS and ShadCN
- Researched, engineered, and implemented solutions to connect manufacturers and creators through an open marketplace platform.
- Collaborated with other research students on ideas and solutions for the project and implemented their solutions.

### Web Development Intern

*ChatDB.ai*

October 2023 – March 2024

*Auburn, AL*

- Contributed to the construction of systems that enabled users to interact with SQL databases using natural language through the integration of OpenAI's API and other Large Language Models (LLMs).
- Leveraged React, Next.js, Node.js, and other full-stack technologies to create a set innovative user-facing features and tools for operational enhancements.

## PROJECTS

---

### Infinite Crafter | *Next.js, Supabase, OpenAI API*

- Created a browser game with 100+ weekly visitors, inspired by popular browser game Infinite Craft by Neal.fun.
- Leveraged Next.js and OpenAI's API to create backend API endpoints to dynamically create new elements based on the elements chosen by the user

### CamBot | *JavaScript, React, Next.js, Discord.js*

- Created and launched an open-source Discord bot, utilized in over 200 servers with over 31,000 users.
- Designed and developed a website using React, Next.js, and Tailwind CSS, seamlessly integrating with the Discord bot client for enhanced user engagement and experience

## TECHNICAL SKILLS

---

**Languages:** Java, Python, C/C++, SQL (Postgres), JavaScript, TypeScript, HTML/CSS, Ruby

**Frameworks:** React, Node.js, Next.js, JUnit, Tailwind, ShadCN

**Developer Tools:** Git, Docker, VS Code, Visual Studio, PyCharm, IntelliJ

**Technical Skills:** Visual Studio Code, Gradle, Jupyter Notebook, Node.js, CLI, Git, GitHub, Linux, Windows, MacOS, Vim, Agile Development, Arduino, CI/CD, UI and UX, Version Control Systems, Web Development, Full-Stack Development, Front-End Development, Back-End Development, API, Tailwind.

**Soft Skills:** Teamwork, Leadership, Critical Thinking, Time Management, Detail Oriented, Collaboration, Team-building
